Bhopal, India | +91 8107272366 | bappymallick2410@gmail.com | <https://www.linkedin.com/in/bappymallick> | <https://github.com/bappy-mallick>

SUMMARY

Computer Science undergraduate with hands-on experience in backend development, architecting Firebase and Spring Boot backend systems, building REST APIs, and applying object-oriented programming and database design principles. Led 6-member development teams and built production-grade Android applications. Completed AICTE-backed internships in Android and Java Full Stack development. Seeking Java Backend, Software Engineering, or Cloud Computing internship roles.

EDUCATION

B.Tech – Computer Science Engineering | JNCT, Bhopal

Expected June 2028

CGPA: 8.14 / 10.0 | Coursework: Data Structures & Algorithms, OOP, Database Management Systems, Operating Systems

TECHNICAL SKILLS

Languages: Java, C++, SQL | **Backend & APIs:** Spring Boot, Spring Data JPA, REST APIs, Authentication Systems, Supabase, Firebase | **Databases:** PostgreSQL, Firebase Firestore | **Tools:** Git, GitHub, Docker, Maven, Postman, Android Studio, VS Code

INTERNSHIPS

Java Full Stack Development Virtual Internship – AICTE EduSkills

Jan 2026 – Mar 2026

- Completed a 10-week structured program covering Java backend development, REST API design, and full-stack project implementation.

Android Developer Virtual Internship – Google for Developers & AICTE EduSkills

Oct 2025 – Dec 2025

- Built Android applications using Java and Android Studio over 10 weeks, focusing on UI/UX, Firebase integration, and app lifecycle management.

PROJECTS

DeltaCore – Secure Defense Communication Platform

Smart India Hackathon 2025

Team Lead & Backend Developer (6 members) | Java, Kotlin, Spring Boot, Firebase, WebRTC | Tech: [GitHub](#)

- Independently architected the complete Firebase backend — Firestore schema, real-time messaging, and cloud storage — supporting a defense-grade secure communication platform.
- Engineered multi-factor authentication (MFA) and role-based access control (RBAC) for 3 user tiers, reducing unauthorized access surface by design.
- Integrated WebRTC with Spring Boot to deliver encrypted text, voice, and video channels, achieving sub-200ms average connection latency.
- Authored the PRD, led agile sprints, and coordinated a 6-member cross-functional team from architecture to final demo.

AstraAI – AI Content Generation Backend

Backend Developer | Java, Spring Boot, Supabase, PostgreSQL, Gemini API, Docker | Tech: [GitHub](#)

- Developed backend REST APIs for an AI-powered content generation platform using Spring Boot and a modular layered architecture.
- Integrated the Gemini API to generate content from user prompts and implemented structured request/response handling using DTOs.
- Connected Supabase PostgreSQL for data persistence and configured Docker for containerized application deployment.
- Designed the backend with reusable service components and provider abstractions to support future integration with multiple AI models.

E-commerce Backend

Backend Developer | Java, Spring Boot, Spring Data JPA, MySQL, REST APIs | Tech: [GitHub](#)

- Built a RESTful e-commerce backend from scratch using Spring Boot, following a layered architecture with Controller, Service, and Repository components.
- Developed CRUD APIs for product management using Spring Data JPA and MySQL, ensuring efficient data persistence and retrieval.
- Designed JPA entities and repository interfaces while applying object-oriented programming principles for clean and maintainable code.
- Tested REST APIs using Postman and managed project development with Maven and GitHub.

LEADERSHIP

Entrepreneurship Lead – YUVA Young Indians (YI)

Feb 2025 – Present

- Organized JNCT TechHUNT 2025-26 and co-facilitated the Illuminate Entrepreneurship Bootcamp in association with E-Cell IIT Bombay, engaging 50+ students.

Internship Coordinator – IEDC, JNCT

Feb 2025 – Present

- Facilitated 20+ student–industry connections, managing outreach and interview coordination for internship placements.

ACHIEVEMENTS & CERTIFICATIONS

Achievements: Grand Finalist – Smart India Hackathon 2025 | Grand Finalist – Young Scientist India (9th Ed.) | Top 10% – IAPT National Standard Examinations (Astronomy, Chemistry, Physics)

Certifications: Java – GeeksforGeeks | Cloud Computing – Infosys Springboard (2026) | Full Stack Dev Bootcamp – GeeksforGeeks
